

Search Superfund Site Information

This page allows users to search active and archived sites in EPA's Superfund Enterprise Management System database.

Clicking on a site's name in search results will enable you to view more information about it. National Priorities List and Superfund Alternative Approach sites have web profiles with extensive detail about EPA's activities. Sites that do not fall under the NPL or SAA have profile pages that provide basic information.

* = For these fields, you can select multiple options by using the Ctrl key while clicking the mouse.
